VISION STATEMENT

Through state-wide representation, Idaho Guardian and Fiduciary Association is a resource to assist and support families, volunteers, and professionals who serve incapacitated and protected persons as: petitioning attorneys, Guardian’s ad litem, court visitors, guardians of the person, and conservators of the estate. We provide information and education on the legal process, code of ethics and standards of practice in an effort to assure incapacitated and protected persons in the state of Idaho are cared for in a sensitive, ethical, cost effective, and the least intrusive manner. We will work to develop responsive, skilled, and cost effective resources so that all vulnerable wards have the available services regardless of their financial status. Our association follows the code of ethics and standards of practice established by the National Guardianship Association (NGA) and support their licensure recommendations.

MISSION STATEMENT

The Idaho Guardian and Fiduciary Association (IGFA) promotes the ethical care of incapacitated and protected persons by actively advocating for education and best practice for all such persons.
